EXECUTIVE SUMMARY

Chapter 323, Laws of 2001, Section 20 directed the Department of Social and Health Services (DSHS) to develop and implement a plan to reduce administrative expenses in the community mental health system to ten percent of available funds. The Governor vetoed this section due to the short timeframe allowed for the development and implementation of the plan and directed the Department to conduct a study and make recommendations by October 1, 2002.

The Department's Mental Health Division (MHD) was assigned to conduct the one-time study that would cover the fiscal period from January 2001 to December 2001. MHD worked with the Regional Support Networks (RSNs) and mental health providers to gather information regarding administrative expenses. During the course of the study, MHD realized that the accounting/information system of the RSNs and providers does not generate sufficient uniform data to draw specific conclusions about administrative reductions

In addition, federal legislation that will be implemented in the near future creates new requirements in the mental health system. These requirements will increase administrative expenses.

The MHD is moving towards an outcome-based performance measurement system. This system is supported by the 1999 JLARC Mental Health System Performance Audit and is funded by the legislature. While it would be possible to set up a uniform accounting and information system for RSNs and mental health providers, such a system would be costly and would not give comprehensive information on system performance.

The Mental Health Division will continue to promote data consistency and the use of outcomes to manage the system.

DIRECTIVE TO PERFORM THE STUDY

Chapter 323, Laws of 2001, Section 20 directed the Department of Social and Health Services (DSHS) to develop a plan to reduce administrative expenses in the community mental health system, including the mental health division, to no more than ten percent of available funds. It required the plan to identify and prioritize core administrative functions that must be continued to comply with federal or state statutes.

This section was vetoed by the Governor. The veto message read in part:

"Minimizing administrative costs is an important goal for any program. But the Secretary of DSHS advises me that developing a realistic plan to achieve that goal for the mental health system as a whole will take longer than seven months, in part because it requires the active participation of mental health providers and Regional Support Networks. The legislature's intent to see a plan implemented in July 2003 allows enough time to develop such a plan properly. Therefore, I have vetoed section 20, and direct DSHS to work with appropriate stakeholders to complete the plan, and make recommendations to me and to the legislature by October 1, 2002."

GOALS OF THE STUDY

- ⇒ **Identify administrative functions** or activities within the community mental health system
- ⇒ **Identify federal and state regulations** requiring the activity or function
- ⇒ **Prioritize functions** according to what is required by regulation
- ⇒ **Identify the impact of reducing administrative expenses** to 10 percent of available resources in the community mental health system.

ORGANIZATIONS INCLUDED IN THE STUDY

- 1. Mental Health Division (MHD)
- 2. The Regional Support Networks (RSN)
- Chelan-Douglas
- Clark County
- Grays Harbor
- Greater Columbia Behavioral Health
- North Sound
- Peninsula
- Pierce County
- Southwest

- King County
- North Central Washington
- Northeast Washington

- Spokane County
- Thurston-Mason
- Timberlands
- 3. RSN contracted mental health providers

DATA

A request for information was sent out to the RSNs to be forwarded to mental health providers on April 12, 2002. The information requested included a complete revenue and expenditure (R&E) report for calendar year 2001. This includes detailed revenues by fund sources and detailed administrative expenditures by business functions (payroll, accounts payable, business planning, etc.). Also requested was a list of federal or state rules and regulations requiring the RSNs and providers to perform the administrative functions.

For purposes of the study, the following definitions applied:

Administrative costs means costs for the general operation of the public mental health system. These costs include contracting, fiscal, accounting, general clerical support, legal, facility, activities of Boards of Directors and similar operating costs. It also includes allowable costs or services provided by central units (county government, etc.) allocated in accordance with the RSN's cost allocation plan.

Available resources means funds appropriated for the purpose of providing community mental health programs (resource management services, community support services, community inpatient services and other mental health services) including federal, state and local funds. This does not include funds appropriated for the purpose of operating and administering the state psychiatric hospitals.

Community mental health system includes public or private agencies providing or administering public mental health services.

Mental Health Division means the designee of the Washington State Department of Social and Health Services to administer the state mental health program. The division consists of the following sections.

- 1. Western State Hospital
- 2. Eastern State Hospital
- 3. Child Study and Treatment Center
- 4. Central Office

The information received can be broken down into four categories:

1. Some detailed administrative expenditures for the RSNs and their providers

Greater Columbia RSN, North Central RSN, Peninsula RSN, and Thurston-Mason RSN provided information that fit into this category. However, Greater Columbia RSN's report (Appendix A, page A-6) provided a partial breakdown of both RSNs and the providers. A large part of their administrative expenditure is not explained. North Central RSN (Appendix A, pages A-8 through A-12) could provide one provider's detailed administrative expenditures. Peninsula RSN (Appendix A, page A-14) did not provide information for RSN expenditures, but the two main providers responded to the request.

2. Detailed administrative expenditure for the RSNs but not for providers

Chelan-Douglas RSN, North Sound RSN, and Timberlands RSN provided information that fit into this category.

3. List of activities included in the administrative category without the dollar amount attached to them

Clark County RSN, Northeast Washington RSN, Pierce County RSN, and Spokane County RSN provided information that fit into this category.

4. R&E report without detail of the administrative expenditure

Grays Harbor RSN, King County RSN, and Southwest RSN provided information that fit into this category.

The State Auditor's Office requires local governments to use the Budgeting, Accounting, and Reporting System (BARS). Expenditures are broken down per BARS objects (Appendix B, page B-1). Although some RSNs were able to provide detailed information on their administrative expenditures, they were unable to break down the information by business functions, as requested, because this is not required of current systems under BARS.

Since providers are either private organizations or not-for-profit (non-governmental) organizations, there is no requirement to use the BARS system. Consequently, providers did not have the information broken down into the same categories as the RSNs.

DATA ANALYSIS

Since there is significant variation in the level of data received from the RSNs, data analysis relies heavily on the R&E reports. These are mandated reports

submitted by RSNs to the MHD every six months. For MHD information, the data is based on the department Financial Reporting System (FRS) reports.

From the information reported by the RSNs, providers and the Mental Health Division, the available funds for the community mental health system are \$404,152,720 for calendar year 2001. The total administrative expenditure reported is \$53,567,818 of which \$37,405,832 was at the provider level. (See Appendix B, page B-5 for detailed information.)

Of the available information, the largest category among the administrative expenses is salary and benefits.

Based on the data received, the current level of administrative expenditures is approximately 13.25 percent of available funds. Of the 13.25 percent, the providers' administration represents 9.26 percent of available funds. RSN administration and MHD administration are 2.55 percent and 1.45 percent respectively. MHD does not consider these to be firm figures because of the wide variation in the data received.

Based on these 2001 calendar year figures, a reduction in the administrative expenses in the community mental health system to 10 percent would require a reduction of approximately 3.25 percent of the total available funds or, approximately \$13 million. This \$13 million reduction would equate to a 24.55 percent reduction of total administrative expenses.

The department does not recommend that any action be taken based on these figures. Without better uniform data, there is no way to identify the activities that could be eliminated or reduced.

NEW FEDERAL REQUIREMENTS

There are two new federal requirements that will go into effect over the next year: the Balanced Budget Act of 1997 (BBA), and the Health Insurance Portability and Accountability Act of 1996 (HIPAA).

The BBA, which must be implemented by August 13, 2003, will require that both the state and the RSNs as prepaid health plans have protections in place for clients enrolled in managed care programs. The mental health system will need to publish extensive benefit brochures, have expedited grievance and fair hearing processes, provide for oral and written translation, develop quality strategies and performance indicators, and increase monitoring. None of these requirements have been mandated to the mental health system in the intense manner that they are now being prescribed by the Code of Federal Regulations. Therefore, the costs of these services have not been incurred by the prepaid health plans or by MHD and are not included in the administration costs of the system. The estimated system cost of complying with the BBA for Fiscal Year 2004 is \$6,140,899 and, \$6,324,824 for Fiscal Year 2005.

HIPAA, with provisions effective as early as April 14, 2003, will require standardizing the interchange of electronic data for specified administrative and financial transactions and will require protecting the security and confidentiality of electronic health information. There are four key areas that will impact the mental health system: electronic transactions and code sets, privacy, unique identifiers, and security. It is anticipated that HIPAA will be costly to implement at all levels of the system.

RECOMMENDATIONS

1. Curtail administrative reductions while new federal requirements are being implemented.

If the community mental health system were to reduce administrative expenses to 10 percent of available funds, administration would have to be cut an estimated 3.25 percent of available funds. This equates to a reduction of 24.55 percent of administrative expenses. It would not be possible to meet basic administrative functions of the system with such a reduction.

Due to variation in the local data and changes imposed on the mental health system by BBA and HIPAA, the department recommends that no further action be taken at this time. Any significant reduction in administrative costs would most likely come from the provider level and may affect how the system serves clients.

2. Continue development of performance-based outcomes to measure system effectiveness.

The department's Mental Health Division is moving towards an outcome-based performance measurement system. This system, supported by the 1999 JLARC Mental Health System Performance Audit, has been funded by the legislature. While it would be possible to set up a uniform accounting and information system for RSNs and mental health providers, such a system would be costly and would not give comprehensive information on system performance. The performance outcome system is expected to give system-wide information. An initial report is due to the legislature on October 1, 2002. Regular reports on system performance will be published starting in June of 2003.

As MHD moves forward with performance measures, the scope of this report will be broadened to incorporate more cross-system and outcome measures. The report will look at consumer improvement and recovery over time and create benchmarks, incentives and goals for the performance of the public mental health system. This performance measurement system will be used to

monitor the mental health system, improve the quality of mental health care and plan for future service needs.

3. Continue to promote uniform accounting and information from local systems.

The department will continue to promote uniform information/accounting data systems that would enable the RSNs and their providers to capture information in a more consistent and accountable manner. Systems that allow the breakdown of information by business functions would enable the RSNs, providers and MHD to make better decisions regarding cost reduction and could, in turn, develop more efficient ways to conduct business.

Jefferson County Re: Administrative Cost Study

Glen Huntingford Dan Tittemess Richard E. Wojt

Attached are the cost study figures from the PRSN's two largest providers. I have not

been able to get responses from our smaller providers yet, but will continue to try.

Kitsap County

Jan Angel

Tim Botkin If you need additional information regarding the administrative costs of the PRSN itself,

I can try to engaged in by each staff person by the hour.

ADVISORY BOARD Let me know if you need me to pursue either the small providers or categorization of RSN admin.

Thanks, and sorry for the delay.

To: WinanCA@dshs.wa.gov

Subject: Re: Administrative Reduction Study

As we discussed, the RSN and provider admin. expenditures provided in the State & Revenue Expenditure Report are accurate. Activities included in this line item are

- RSN Administration;
- Central county government fixed costs (audit services, insurance, facility maintenance, PC Maintenance, Data processing, routing and delivery, Performance audit, personnel support, etc)
- planning;
- coordination,
- contracting,
- fiscal and contract monitoring,
- accounting,
- general clerical support,
- legal,
- office space/facility, and similar operating costs

RSN Administration - Costs of operating the RSN. Activities include . Also includes allowable costs of services provided by those activities normally identified with central county government that have been allocated to the RSN using an established methodology consistent with the approved cost allocation plan.

>>> "Winans, Christina" <WinanCA@dshs.wa.gov> 05/17/02 04:04PM >>> I still have not received the information requested for the Administrative Reduction Study from your RSN. Your information is essential to the

project. Please send it in to me by Wednesday, May 22. Thank you for your cooperation.

RE: RSN Administrative Cost Survey

DATE: May 14, 2002

Thank you for your extension until May 15th. We received the response from Spokane Mental Health today and are forwarding you the information we gathered so far.

First, the Cost Allocation Methodology that was submitted to your office on February ISd1 of this year was the starting place to respond to this administrative survey. A number of our Outpatient providers submitted methodology that showed how Administrative costs were separated from Direct Service and Direct Support costs.

Second, we received narratives from our sample agencies that described their Administrative activities. It was difficult for the agencies to find a direct correlation between RCW or WAC requirements. However, there was reference to specific requirements in our subcontract with them. We are attaching information from the following agencies for your review: Catholic Charities, Children's Home Society, Family Services, Hope Partners, Lutheran Social Services, Native Project and Spokane Mental Health.

Third, we continued our figures in our Revenue and Expense Reports sent to you for the January 1, through June 30, 2001 and July 1, through December 31, 2001 time frame:). We have prepared a schedule showing the Administrative cost, Direct Services costs, Direct Support costs, Total payment to each provider and percentage of Administrative to total payment You will note that the overall Provider administrative percentage is 7% and the RSN administrative percentage is 3% for a total of 10%. We have been able to stay within this 10% because the Inpatient funds paid by the Mental Health Division does not have any provider administrative costs associated with it Also in reality, the agencies would have higher administrative costs but these are being paid for from Other Agencies funds. However, based upon our actual payments and the specific amount paid for administration we have kept the total administrative percentage to approximately 10%. We have included a footnote that describes the RSN duties-on this schedule and have also attached our original submission of RSN Administrative backup for the Cost Allocation Methodology requirement

I am hopeful that this specific provider information will be instrumental in completing your overall Administrative Cost Survey for all the RSN's.

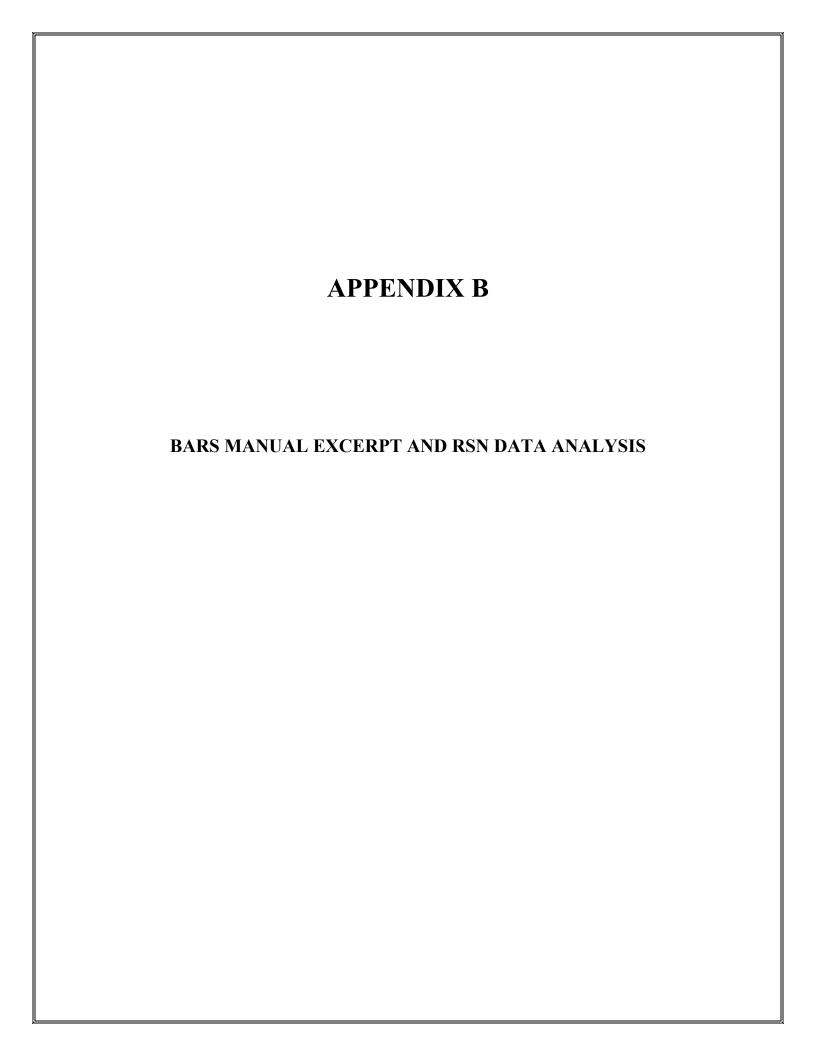

Figure 21 BARS Manual Excerpt

BARS Manual

CLASSIFICATION OF EXPENDITURES BY OBJECT

Definitions

SALARIES AND WAGES. Amounts paid for personal services rendered by employees in accordance with the rates, hours, terms and conditions authorized by law or stated in employment contracts. This category also includes overtime, hazardous duty or other compensation construed to be salaries and wages. Subdivide this account as necessary for local purposes (i.e., regular pay, overtime pay, sick pay (employee related), sick pay (non-employee related), vacation pay, shift differential, and other taxable compensation).

Note: Personal Services do not include fees and out-of-pocket expenses for professional or consultant services performed on assignments. Such services are properly classified as *Other Services and Charges*.

PERSONNEL BENEFITS. Those benefits paid by the employer as part of the conditions of employment. Subdivide as needed for local purposes. Examples:

Insurance
OASI (FICA) - Employer-paid portion
Workmen's Compensation

Unemployment Compensation Uniforms and Clothing Pension Retirement

Pension and Disability Payments. Payments by self-insurance and trust funds to retired or disabled employees or their beneficiaries. Use other 20 subobjects for employer payments to pension systems and to state agencies for unemployment and disability insurance. Use subobject 49 for payments from self-insurance funds for property and liability claims.

1 Required for reporting purposes.

CLASSIFICATION OF EXPENDITURES BY OBJECT

Definitions

- **SUPPLIES.** This is a basic classification of expenditures by object for articles and commodities purchased for consumption or resale.
- 31 Office and Operating Supplies. Articles purchased directly and consumed by operating departments.

Examples:

Office Supplies Feed for Animals

Forms Food for Human Consumption
Agricultural Supplies Household and Institution Supplies

Chemicals Laboratory Supplies

Cleaning and Sanitation Supplies Lubricants
Clothing Medicines

Construction Materials and Supplies Paints and Painting Supplies

Drugs Plumbing Supplies Electrical Supplies Publications

Fuel Consumed. Include fuel used to generate power, fuel for heating, and fuel for operating engines and vehicles. See subobject 34 for fuel purchased for resale. Use subobject 47 for electricity and natural gas. Examples:

Coal Nuclear Fuel
Diesel Fuel Propane Gas
Fuel Oil Wood

Gasoline

Power, Water, Gas Purchased For Resale

34 Supplies Purchased for Inventory or Resale

Examples:

33

Internal Service Fund items such Central Stores as automotive repair parts Fuel

Code Books, Maps Grave Markers and Liners

Concession Supplies

Library Books and Other Library Materials

(if capitalized, see subobject 64)

35 Small Tools and Minor Equipment

CLASSIFICATION OF EXPENDITURES BY OBJECT

Definitions

OTHER SERVICES AND CHARGES. This is a basic classification by object for services other than personal services which are needed by the government. Such services may be provided by agovernmental agency or by private business organizations. For interfund payments for services see object 90. The following are principal types of services and charges included in this object classification:

41 Professional Services

Examples:

Accounting and Auditing Management Consulting

Engineering and Architectural Legal

Medical, Dental and Hospital Custodial Cleaning

Computer Programming Messenger

42 Communication

Examples:

Telephone Postage
On-Line Charges Facsimile

43 Travel

Examples:

Per Diem Meals Lodging Mileage

44 Advertising

Operating Rentals and Leases. See subobject 66 for the distinction between operating and capitalized leases or rentals.

46 Insurance

Examples:

Fire Theft
Other Casualty Liability

Bonds

Note: Use object 20 for insurance applicable to personnel benefits.

47 Utility Services

Examples:

Gas Electricity
Water Waste Disposal
Sewer Cable TV

Note: Use subobject 33 for power, water or gas purchased for resale.

1 Required for reporting purposes.
